## Qualitative

<b>What helped you stay connected and engaged with your class? -</b>
<ul style="list-style-type: none"><li>Our cohort has a very good relationship so we supported one another and Dr. Baggett made himself available to us so it was easy to make the transition to the online format.</li><li>My cohort is amazing at staying connected using a variety of platforms.</li><li>The cohort model and established relationships with both my professor and my peers.</li><li>Zoom meeting organized by instructor</li><li>There was not any further contact after going to online other than one email and one brief 5 minute Zoom session. I would have liked to see at a minimum a taped lecture for the missed class time. I am very disappointed that I do not feel that I got what I needed after the course moved to online. We never met online as a class. We were not provided at least one taped lecture.</li></ul>
<b>What might have helped you be more successful in online learning? -</b>
<ul style="list-style-type: none"><li>I would have liked to see at least 1 or 2 taped lectures. Even if they were only 20 minute taped lectures that would have been better than nothing. Dr. Baggett said he would send a taped lecture but we never received one.</li><li>Na</li><li>I wish we could have had a zoom meeting on the class days that we missed.</li><li>I do not believe much changed but I will say having a Zoom meeting with Dr. Baggett to review our major assignment and receive feedback was extremely helpful.</li><li>I was successful so at this time I do not have any suggestions.</li></ul>
