<ul style="list-style-type: none"> I lied on this Evaluation. Dr. Baggett was an excellent teacher who pushed us academically. Course was a bit of fiasco. I've seen this professor do well before and this class was the exception. He was trying to use a new teaching method and had a hard time integrating it. Maybe go back to the old ways Dr. Baggett is a great professor and cares a lot about his students and their learning. He is great at making sure how he is teaching is working for the class, and is more than willing to change how he teaches if the class is having difficulties. I have taken previous courses with him, and I was happy to see that he taught this course as well. All in all a great teacher. Great professor, his students are his priority. Emails are answered within minutes, regardless of what time of day. Tries to find different ways to help students to understand the subject. Flexible and understanding. Interactive and kept the class engaged! I wish I knew that I had to take Methods before I had to take this class. I am not a math person and sometimes I think I am not being advised well in my college course taken. I feel like I am wasting money and time. Dr. Baggett is a good teacher and know his stuff. He made the class fun with his jokes :) see you in the fall Dr. Baggett He was a really good teacher and made it fun.
