<ul style="list-style-type: none"> <li>R Studio is the worst. Truly. I haven't really understood the connection between R and what we've learned in class. I also feel like i have to mostly teach myself a lot of what i need to know for the exams from the textbook. I really feel like the class could be more doable and more understandable if we didn't use R. Although, I do really appreciate the team-based-learning aspect of this class. Dr. Baggett is an excellent and brilliant professor. It's just R that makes this class difficult.</li> <li>Although statistics is not an easy subject to understand, I feel that you need a way of explaining better without confusing students.</li> <li>Best teacher ever yet again!!!</li> <li>I didn't like using R-Studio, it was too confusing and no matter what I tried to do, I kept getting errors when I tried to do the labs.</li> <li>The R program we used in class seemed like it didn't have anything to do with what the course was about. I really hated that we had to be in teams to do them because not every team member put in the same amount of effort as the others. The labs just seemed to be more of a hassle than anything else.</li> <li>Dr. Baggett is an awesome professor. I was dreading taking statistics, but I actually really enjoyed it! I will be taking him again next semester.</li> </ul>
