<ul style="list-style-type: none">• What a great professor, really enjoyed taking his class.• Fun class.• Great teacher, really enjoyed the class• When I first heard of this class, I'm thinking different methods on how to deal with people. When I realized it was not that, I chose not to drop it. I chose to open my mind and learn something new. The only thing I wish need improvement was the reading. It felt it was crammed and trying to crammed so much within a limited time period. Other than that, Dr. Baggett is a simple yet fun teacher who makes being a nerd cool• You are the best teacher I've ever had. Continue to be you!• I didn't think I would like the team based learning at first. However, I actually ended up enjoying it!• Dr. Baggett, made a course that was mandatory and not necessarily a fun course, interesting and engaging by relating it to real life scenarios. Doing invididual as well as being put in teams made it great to not only get to know people in the class, but learning to work together towards a common goal.• Dr. Baggett is an exceptional professor. He applies every subject to a life scenario which helps me understand even more. The course load is at an appropriate weight. I learned so much from this class because of Baggett's teaching method.
