Qualitative

What helped you stay connected and engaged with your class? -

- Dr. Baggett would record the Zoom meetings so we were able to access them anytime we needed help with the homework.
- $\bullet\,\,$ Dr. Baggett's updates and messages helped with the online transition.
- Canvas
- $\bullet \;\;$ Staying in contact with classmates and professor Baggett.
- Occasional zoom calls with the professor
- Canvas
- The online assignments.

What might have helped you be more successful in online learning? -

- Nothing would have made it more successful.
- Zoom/lecture recordings
- Nothing, the professor does a great job to keep the class engaged
- Having the professors (all) be more organized with the transition. As well as knowing and being prepared if this were to ever happen again in the future.
- More zoom lectures
- I'm not sure
- This was a pretty straight to the point class I'm just not very good at math. If I would have asked for more clarification on somethings I feel I would have passed with a higher grade.
